SITE REHABILITATION & LAND MANAGEMENT SERVICES

WMR, a fully Aboriginal owned company with the support of Greening Australia, provides an integrated full service solution to site maintenance, management, remediation and offset requirements.

Our Aboriginal workforce operates the WMR nursery in the Hunter Valley, and has fully equipped seed collection, planting, fencing and maintenance crews operating throughout NSW.

THINK GREEN

Our seed collection teams travel throughout NSW targeting specific species for offsets and rehabilitation. We provide place stock species specifically identified for your site.

Our trained aboriginal workforce delivers cost effective site rehabilitation and land management solutions supported by our maintenance teams.

Greening work sites

Our Aboriginal workforce operates the WMR nursery at Camberwell in the Hunter Valley, and has fully equipped seed collection, rehabilitation planting, fencing and maintenance crews operating throughout NSW.

Our cost effective and efficient program delivery is focused on compliance and site management.

Through trained aboriginal specialists, supported by Greening Australia, we provide land management teams for all aspects of site maintenance and
